

Terms of Acceptance

When a practice member seeks chiropractic health care and we accept a practice member for such care, it is essential for both to be working towards the same objective.

Chiropractic has only one goal. It is important that each member understand both the objective and the method that will be used to attain it. This will prevent any confusion or disappointment.

Informed Consent:

A patient, in coming to the chiropractic physician, gives the doctor permission and authority to care for the patient in accordance with the chiropractic tests, diagnosis, and analysis. The chiropractic adjustment or other clinical procedures are usually beneficial and seldom cause any problems. In rare cases, underlying physical defects, deformities or pathologies may render the patient susceptible to injury. The doctor, of course, will not give any treatment or care if he is aware that such care may be contra-indicated. Again, it is the responsibility of the patient to make it known, or to learn through healthcare procedures whatever he/she is suffering from: latent pathological defects, illnesses or deformities which would otherwise not come to the attention of the chiropractic physician. The chiropractic physician provides a specialized, non-duplicating health care service. Your doctor of chiropractic is licensed in a special practice and is available to work with other types of providers in your health care regimen. I understand that if I am accepted as a patient by a physician at Healthy Family Chiropractic PC, I am authorizing them to proceed with any treatment that may be necessary. Furthermore, any risk involved, regarding chiropractic treatment, will be explained to me upon my request.
